Profile

Motivated software development professional with strong foundation in building web applications using JavaScript, TypeScript, React, and NodeJS. Committed to continuous improvement through hands-on learning, I bring a well-organized and collaborative approach to teamwork, coupled with effective communication and analytical skills. Proficient in Agile Scrum Methodology, I have a solid background in finance management. My recent experience includes completing an 8-month Full-Stack Development Bootcamp at Hack Your Future in Denmark, where I played a key role in developing a Job Search App and a Meal Share App. With a bachelor's degree in computer science, an MBA in Banking and Finance, and hands-on experience in various projects, I am poised to contribute effectively to dynamic development teams.

Skills

HTML, CSS, Java Script, TypeScript, ReactJS, NodeJS, ExpressJS, MySQL, PostgreSQL, Git, Agile

Experiences

2023: Full-Stack Development Bootcamp, *Hack Your Future*, Denmark

8-month coding bootcamp with modules on HTML, CSS, JavaScript, TypeScript, React, NodeJS, ExpressJS, MySQL

Worked as Class Communicator collaborating closely with HYF authority and classmates in various programs.

Job Search App | Group project | Oct 2023 | [Source](#) | [Demo](#)

- Web application designed for job search, featuring comprehensive functionalities for both users and administrators.
- The application ensures secure authentication through Firebase, providing a robust and reliable authentication system.
- Implemented a MVC architecture.
- Worked with Project Manager, Team Lead to meet requirements for functionality, scalability, and performance.
- Adheres to Agile Scrum Methodology for efficient project management.
- Involved in designing the database schema, created routes for API endpoints, and developed frontend components, ensuring a user-friendly and intuitive interface.

Technologies Used

Front End: TypeScript, React, Material UI, Zustand for state management.

Database: PostgreSQL

Backend: NodeJS, ExpressJS

MEAL SHARE APP | Sep 2023 | [Source](#) | [Demo](#)

- Another full-stack App for the user to view available meals, schedule a meal, and add reviews
- Personal project as part of bootcamp.

- Used MVC architecture.
- **Technologies Used:**
- **Front end:** JavaScript, ReactJS
- **DB:** PostgreSQL
- **Backend:** NodeJS, ExpressJS

Other Projects like Weather App, Todo list, Amazon clone, eCommerce website using C# with .NET framework (in progress)

2017 – 2021 Assistant Finance Manager

Co-operative Bank, Kerala, India

- Prepared monthly reconciliation of bank accounts and took corrective actions on deviations.
 - Processed invoices and contacted appropriate parties for timely payment receipt.
 - Worked closely with audit team.
 - Help in creating an environment to improve, develop and learn from others
 - Motivate and support the team to meet the deadlines
 - Organized and participated in meetings to define strategy, goals, and scope of the research project
 - Assisted with the preparation and analysis of financial reports.
-
- Collaborated with partners, stakeholders, and industry clients to lead, develop, and maintain an applied research plan while ensuring program relevance.

2012-2013 Associate Software Engineer

Tata Consultancy Services, India

Web site for telecommunication company

- Worked with software development and testing team members to design and develop websites.
- Used technologies like HTML, CSS, .NET, SQL.

Skilled at working independently and collaboratively in team environment.

Education

2016: MBA, Banking and Finance, Bharathiyar University, India

2012: Bachelor of Technology, Computer Science and Engineering, CUSAT University, India

Malayalam	Native

Who am I

I am Remya,

I am a Software engineer from India. Currently, I am building various projects, trying new languages and frameworks. At heart, I am a lifelong learner, constantly adapting to emerging technologies and trends. Collaboration, teamwork, and effective communication are at the core of my work philosophy. I recently completed an 8-month Full-Stack Development Bootcamp at Hack Your Future in Denmark, where I played a pivotal role in developing a Job Search App and a Meal Share App. These experiences have not only enhanced my technical skills but also sharpened my organizational and collaborative approach to teamwork.

In addition to my technical prowess, I have a history of leadership as an Assistant Finance Manager at Co-operative Bank in India, where I oversaw reconciliation, invoice processing, and collaborated closely with audit teams. My journey also includes a stint as an Associate Software Engineer at Tata Consultancy Services, where I honed my skills in web development using HTML, CSS, .NET, and SQL.

Me and my husband working as Site Supervisor in Alstom and our children, we live in Denmark together and we are looking forward to contributing positively to this beautiful country and embracing the opportunities it offers.
